Website Development

VY NGUYEN - 4 NOV 2016

Overview

Website designing and development.

Specifications

1. Search with filter for report- to allow users to choose: working group, full report or individual working group report, year, regulation, etc.

2. Show information of members of all working groups – this will include design work (if required)

3. Online Survey - each working groups will often have survey to collect comments/feedback on regulation and this is currently done via email. Thus an online survey system would help them to save more time and be more efficient. Email of anyone who do the survey will be automatically sync to Mailchimp.

4. User Registration & Mailchimp Integration – Any new web users, who register to be a member on VBF website, their emails will be automatically added to VBF's current Mailchimp account

5. Event page – to update all upcoming events/meeting for members and non-members

6. News – all of articles on website will be shared on LinkedIn. Members also will able to upload articles on the site but it needs to be approved by admin person.

7. Online Communications Forum for members to discuss about specific topics

8. Google Analytics integration – this will allow the client to see which issues/topics are the most viewed on the website

Preferred Technologies

PHP, MySQL, JQuery, SaaS, HTML5, AngularJS
